

Three doors. One community.

Start with the smallest useful action. Continue only when the next level helps your organization.

No fee

No client case file

Information carries forward

PATH 1

Confirm Our Listing

Check address, phone, website, hours, and services. Correct only what changed.

- No Workbench account required
- Organization-level review receipt
- Continue later without retyping

About 2 minutes

PATH 2 - FRONTLINE FAVORITE

Use Partner Tools

Open Warm Handoff, Print Room, referral slips, privacy cards, and the Shift Cockpit.

- Private tools work immediately
- No public publishing
- Upgrade without starting over

About 5 minutes

PATH 3

Join the HOPE Network

Verify affiliation and publish live updates, asks, offers, and shared tools.

- Verified Partner Passport
- Regional Pulse participation
- Community exchange

About 15 minutes

Confirm

Use Tools

Join Network

The daily workstation

1

See what changed

Current status and relevant nearby updates appear first.

2

Build one useful tool

Create a warm handoff, script, referral slip, poster, or field card.

3

Review and act

See the exact output, then text, print, copy, call, or publish when authorized.

4

Return without starting over

The workstation remembers the organization and recent operational actions on that device, never client case details.

Tools-only workspace

Create private drafts, handoffs, and print materials immediately. No affiliation approval is needed for private use.

Verified network access

HOPE verifies affiliation and issues a one-time code before live status or network publishing.

Privacy boundary

Never enter Social Security numbers, full dates of birth, medical records, case numbers, private addresses, confidential locations, document photographs, or open case notes. Temporary handoff information clears after 15 minutes.

Operational grammar: CHOOSE → CONFIRM → CREATE → ACT.
