

HOPE PARTNER NETWORK

Useful on day one. Stronger together.

HOPE gives frontline teams verified referral information, fast handoff tools, printable materials, and a practical way to coordinate across Rhode Island.

Free public help

No client database

Immediate partner tools

The problem you already have

Programs are scattered across aging directories. People arrive at the wrong door, at the wrong time, without the documents or instructions they need. Your staff absorbs the confusion.

What HOPE changes

One verified service profile powers public listings, referral slips, QR posters, call scripts, handouts, and Bridge-generated next steps. Update once. Improve many tools.

What partnership unlocks

FASTER WORK

Warm handoffs and next-step slips

Choose the destination, need, and consent. Review, text, print, copy, or call.

BETTER VISIBILITY

A verified Partner Passport

Accurate hours, intake rules, language, accessibility, and call-first guidance.

NETWORK VALUE

Regional Pulse, asks, and offers

See what changed nearby, request help, and share resources without client data.

REUSABLE TOOLS

Print room and community tool commons

Create staff cards, volunteer guides, bilingual handouts, QR posters, and referral materials.

Your first week

- Verified Partner Passport
- Customized Shift Cockpit
- Three organization-specific tools
- Printable QR referral asset
- One useful network connection
- Simple activity receipt

What HOPE does not ask for

- No client case files
- No performance rankings
- No exclusivity
- No financial contribution
- No open-ended trauma logging
- No claim that a referral guarantees service

The partner promise: HOPE should save time or prevent a failed referral before it asks an organization to attend another meeting.
